

COURSE DETAILS

This intensive day is made up of short, interactive sessions covering specific leadership skills for clinicians, supported by practical exercises carefully designed to really challenge you, so you will be able to test out and fully consolidate your learning immediately.

The Leadership Business has spent 25 extremely successful years providing outstanding, experiential leadership programmes throughout the UK and Europe. We are leaders in our field.

We work to CIPD Professional Standards, so you are guaranteed a highly stimulating and memorable learning experience which will have a real and enduring impact on you for the rest of your career.

This course should attract 6 CME points (on application).

We can also offer you:

★ Accreditation by Adair International

★ Certificates of attendance

★ Reflective templates for you to complete during & after the day.

This means that you will have detailed written evidence of your personal development in leadership for CPD, appraisal and revalidation purposes.

“EFFECTIVE CLINICAL LEADERSHIP IS AT THE HEART OF DELIVERING OUTSTANDING SERVICE TO PATIENTS, SERVICE USERS, CARERS AND THE PUBLIC”

The report “21st Century Doctor: Understanding the doctors of tomorrow” says that medical students need to improve their leadership skills because as doctors **YOU** will be responsible for working in and leading care teams.

The new NHS Leadership Framework, that has been developed from the Medical Leadership Competencies Framework (MLCF) tells you all you need to know about **WHAT** to do to lead clinical teams but not **HOW** or **WHY**.

That’s where the “*Practical Leadership Skills for Registrars*” comes in. Invest just one day of your time and learn to be an effective clinical leader. You will know exactly **WHAT TO DO, HOW TO DO IT, and WHY IT WORKS**

INVEST JUST ONE DAY OF YOUR TIME AND YOU WILL KNOW HOW TO:

- ★ Inspire your clinical team to deliver outstanding service
- ★ Motivate others to give of their best
- ★ Tackle and solve team problems
- ★ Influence others to work better together
- ★ Lay the leadership foundations for your future career
- ★ Create precious time to think about leadership, discuss and reflect with others on what they do as leaders, and how they do it.

YOU WILL BE ABLE TO:

- ★ Clearly state the difference between leadership and management
- ★ Describe exactly what successful leaders actually do
- ★ Develop the skills and personal qualities that leadership demands
- ★ Use project planning tools to deliver outstanding results; and
- ★ Apply everything that you learn back in the clinical setting immediately and see the results straight away.

WHEN WE RAN THIS COURSE FOR EDUCATIONAL SUPERVISORS THEY SAID THIS:

“Great fun! A practical yet thoughtful approach to learning leadership”
